ACE Air Conditioning  
2985 Enterprise Rd  
DeBary, FL 32713

To Whom It May Concern:

Twelve and a half years ago I had my old a/c replaced by ACE after various estimates from different companies. I was very pleased with the work done by ACE and with the unit that was installed. When the time came to replace the unit last month I called ACE for an estimate. I was treated with courtesy and Scott was very knowledgeable. We talked about the new efficient units and he recommended the Evolution by Bryant. I was very impressed by all he had to say about it. Scott directed me to a website where I could read about the award given to the Evolution and I was further impressed about what I read. I was also attracted to this unit because of the incentives, such as the \$1000 rebate from Bryant which I received promptly. Joe day came to look at the house and see what I needed for the Evolution to work properly. He was also very knowledgeable and I made the decision to sign up a contract that same evening. ACE also filed the paperwork with the electric company so I could receive a credit from them for purchasing this unit. I was also approved for a 6 month 0% interest credit. The job was completed to my full satisfaction and I am extremely happy with my Evolution. It is so quiet and efficient. I have been telling all my friends about it. Thanks ACE!

Sincerely,

  
Norma S. Linden
